# Our Organization Strucure

# Safety Policy

It's company policy that accident prevention be a prime concern of all employees.

This includes the safety and wellbeing of our employees, subcontractors, and customers, as well as the prevention of wasteful, inefficient operations, and damage to property and equipment.

# Quality Policy

The company's quality objective are to complete projects in according with the agreed programmer, specification and coast, to the highest standards of quality and efficiency whilst ensuring that statutory and regulatory requirement are complied with and client expectations are met.

The Board of Directors are fully committed to the Quality Management System and its continued improvement, and has assigned responsibility in this regard to the two Construction Directors, who sit on the Main Board, whose duties include ensuring that Management Review meetings are held at regular intervals to review the system's effective operation and development.

The Company's Quality Management System conforms to requirements of International codes (ASTM, ASME, API, DIN, etc...), it's subject to regular examination and assessment by an independent certification authority, which ensures a process of constant evaluation and improvement. This benefits our Clients and how we conduct our business, while enhancing the standing of Walls Construction industry.

The effectiveness of all the Quality Management System depends on a full commitment from all personnel. Management and staff are encouraged and motivated to implement the system as a matter of company priority. Subcontractors are obliged to comply with the system as a condition of appointment.

# Environmental Policy

ME co is fully committed to the prevention of pollution, protecting and minimizing the effect of our operations on the environment, we will take all reasonable steps to ensure that all persons working for the company are aware of the rules, Our company is committed to continual improvement of our environmental performance and compliance, we will ensure that all our activities and that of our suppliers and sub-contractors comply fully with environmental legislation, we will co-operate fully with the Environment Agency, ME co aims to reduce that impact of our business on the environment by careful application to meet necessary legal and regulatory requirements.
